#NCLDconference2016

The National Centre for Longitudinal Data (NCLD) is presenting for the first time the Longitudinal Data Conference 2016. The conference will showcase how survey and administrative longitudinal data provide a powerful evidence-base for the development and assessment of national policy.

## What impact can your longitudinal research have on national policy?

### How can data be used as evidence to transform a nation?

- Abstracts to present at the conference or to facilitate a workshop close **31 May**
- Early bird registration opens **16 May**
- Exhibition booths are available for **Wednesday 26** and **Thursday 27 October**
- The NCLD is offering one free registration scholarship per Australian university for a fulltime PhD student to attend the conference.

Powerful data	Strong evidence	Informed policy
What are industry-leading examples of longitudinal survey design and data collection, data linkage and data analysis?	How is longitudinal data being used in policy relevant research?	How can we use longitudinal data to inform future policy that accurately meets our needs as a nation?
