

St Catherine's College, UWA Postgraduate Program

ST CATHERINE'S COLLEGE
The University of Western Australia

Five reasons to consider living on campus at St Catherine's!

1. Surrounding yourself with like-minded people positions you for success

At St Catherine's, we have created a community of like-minded scholars who are pursuing their postgraduate degrees. Our aim is to cultivate a community which provides a rigorous intellectual environment as well as lively social opportunities for all to enjoy. The peer support of 120 other students is a critical component of the success of the program.

2. Choose to participate in a wide variety of formal or social events

Events in and out of College, specifically organised for our postgraduate community, are plenty. Choose to participate in social sports teams, go on theatre and concert outings, impromptu movie nights, or family-style dinners with a few drinks at one of the local bars and restaurants. For something more formal, there is the monthly Postgraduate Dinner, where you are encouraged to invite your professors or other industry professionals to enjoy a private three-course meal. But as always, if you need some quiet time to focus on your studies, you can retreat to your own fully-furnished, ensuite Studio Room.

3. Enjoy a vibrant learning and living environment with award-winning and dedicated facilities just for postgraduates

The College buildings are recognised for their superior standard in collegiate style accommodation, winning the coveted WA Master Builder-Bankwest Excellence in Construction Award for Best Multi-Unit Development in 2014. As a physical, intellectual and social space, the Postgraduate Common Room offers postgraduates a dedicated space for more mature students to unwind with unrestricted graduates-only access to comfortable loungers, kitchenette, large screen TV and sound system.

4. We support your health and mental wellbeing

All St Catherine's residents have full access to UWA's Recreation and Fitness Centre. You also have the choice to participate and compete in 20 different sports, so staying fit is a welcome balance to the pressures of study. The College also understands the demands on high-achieving students and provides a tailored pastoral care system to support you when you need it most.

5. Scholarships are available

St Catherine's College invests \$800,000 annually in a range of residential scholarships and bursaries so we can attract the best students. Each scholarship has different criteria and they vary in size, providing discounts on fees. A single online application is all that is needed for you to be considered for the most appropriate scholarship.
