Postgraduate Programs
in Health Administration,
Policy and Leadership

The Sir Walter Murdoch School of Public Policy and International Affairs offers a 2-year Master of Health Administration, Policy and Leadership (MHAPL), and a 6-month Graduate Certificate in Health Administration, Policy and Leadership (Grad Cert HAPL).

These pan-University programs provide the key multidisciplinary skills needed to address the complex challenges facing today's health sector.

Students have the choice to specialise in health administration and leadership; evaluation and policy; or informatics and analytics.

Why study Health Administration, Policy and Leadership?

Health is one of Australia's largest industries and is also WA's largest employment sector. International trends suggest an increasing demand for executives, managers, professionals, administrators and analysts. Graduates will be qualified to seek careers in pharmaceutical and medical devices firms, health insurers, regulatory agencies, hospitals, integrated care organisations, health ministries, health departments, and other governmental agencies, as well as universities and commercial research organisations.

Donna Gilmour (Health Policy)

“Murdoch is ambitious, innovative and forward thinking. There are regular opportunities to attend seminars and overseas trips through the Sir Walter Murdoch School. The University puts its students first.”

Are these programs right for you?

These programs are aimed at:

- Established professionals with health care expertise, looking to acquire in-depth managerial and leadership skills to progress in their career
- Graduates with a Bachelor degree, or equivalent in any discipline (e.g. social sciences, business, medicine, nursing and biology etc.), looking to acquire industry relevant skills to move into the health sector

What will you get out of the programs?

- An appreciation of the administrative, policy, legal, economic and social challenges of equitable and efficient healthcare delivery
- An in-depth understanding of the interdependence of local, national and international health challenges
- The ability to manage and administer a health organisation, following ethical standards
- The capacity to develop, implement and evaluate health policies and programs
- Analytical skills to apply data sciences to improve health care delivery and financing

Why study Health Administration, Policy and Leadership with us?

Industry relevant

Our programs are designed with employers' needs in mind, as identified by our Advisory Board. Many units involve current industry experts, representing major Australian health employers, delivering guest lecturers. The Masters allow students to acquire professional experience through case study projects, internships and research as well as undertake international exchanges.

Study intensively and in flexible formats

Many classes are offered in the evenings, on weekends or in intensive blocks (i.e. over 4 days). Some units are also available online.

Specialise in your area of preference

The programs offer you the chance to specialise in the areas of administration and leadership; evaluation and policy; or health informatics and analytics, or to take a non-specialised route.

Benefit from small-size classes

Classes are taught in small seminars and workshops, providing students with the individual care and support they need.

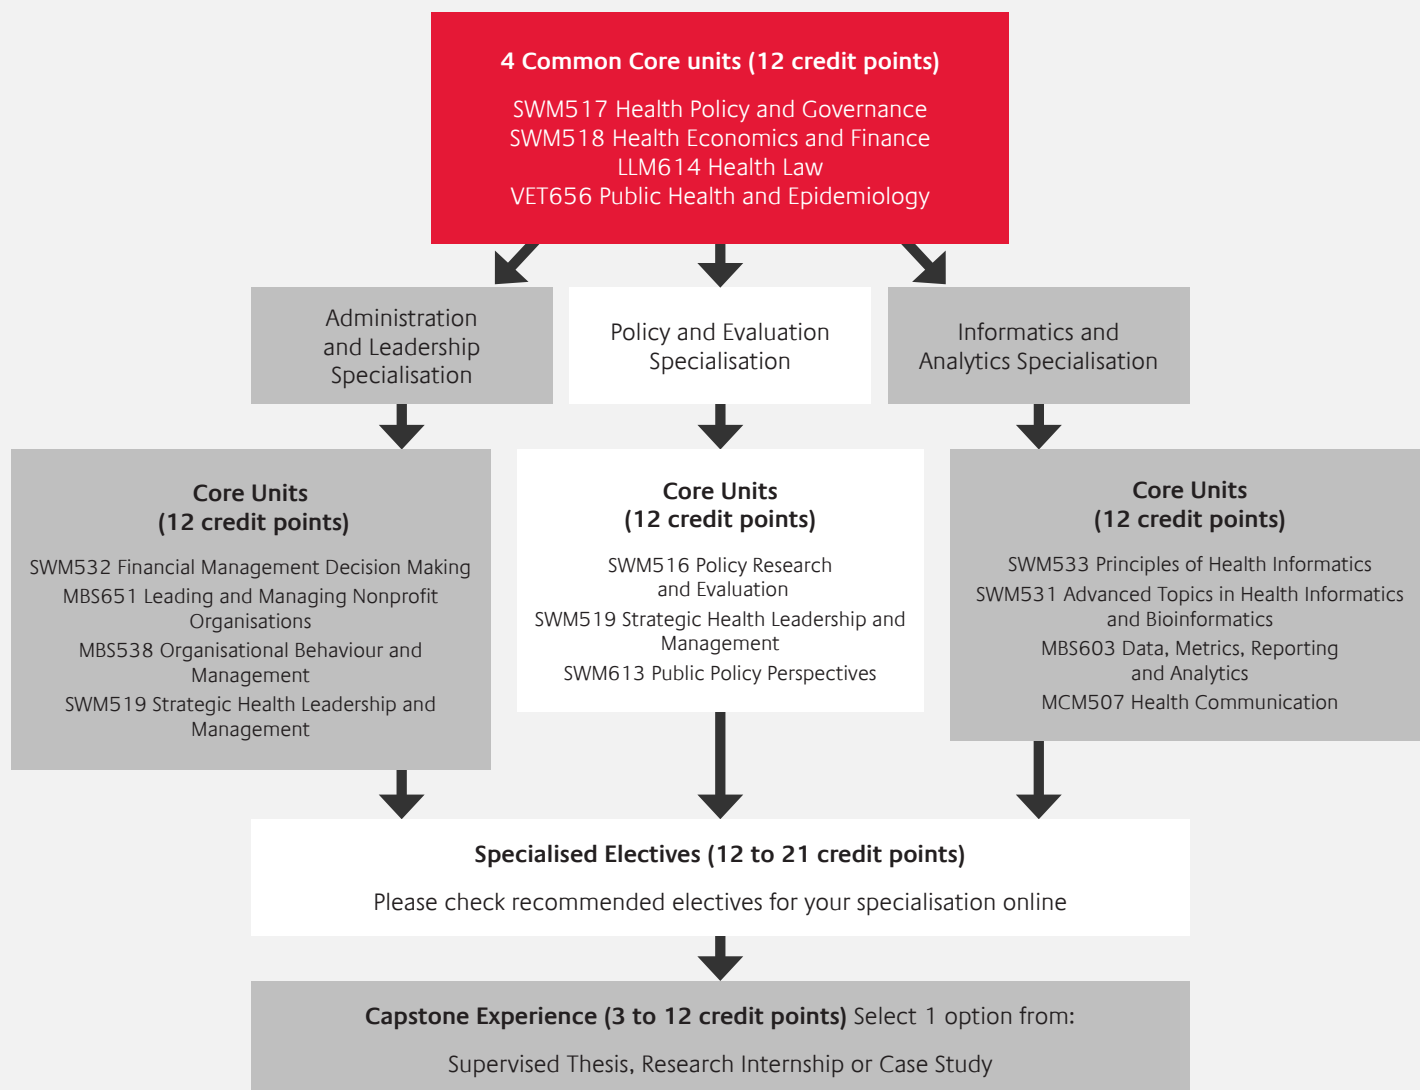

The Sir Walter Murdoch School

The Sir Walter Murdoch School of Public Policy and International Affairs has recently been ranked as one of Australia's best for policy, politics and international studies (QS World University Ranking by Subject, 2016). The school offers students a unique opportunity to engage with big policy issues, develop high-level skills and build career opportunities through professional Masters degrees and other graduate programs. Taking advantage of Murdoch University's long engagement with practical policy questions and deep expertise on Australia, Asia and the Indo-Pacific region, the Sir Walter Murdoch School offers degrees in Public Policy and Management, International Affairs, Development Studies and Health Administration, Policy and Leadership. About us

Francesco Paolucci, Head of Health Policy programs

Dr Francesco Paolucci is Associate Professor and Head of Health Policy in the Sir Walter Murdoch School at Murdoch University. Francesco has been engaged for over 10 years in health policy and management in various countries (Australia, Italy, the Netherlands, Qatar, South Africa, Spain and UK) and collaborated in numerous international researches. He has led the creation and design of unique programs in health policy, including the first Master program in Health Economics Policy and Law in Europe, the European Commission's first joint-funded program in Health Economics and Management, and the Master in Health Administration, Policy and Leadership at Murdoch University. In 2016, Francesco was a winner in the 40under40 Awards, which recognises Western Australia's pre-eminent business leaders under 40 years old.
