PERKINS Seminar Series

THURSDAY 13 APRIL

Associate Professor Debbie Strickland

Team Leader, Experimental Immunology Research Group
Head of the Early Environment Research Focus Area
Head, SAGE Athena Swan Initiative
Telethon Kids Institute

**"Immunology of pregnancy and immune development
relevant to asthma"**

Assoc Prof Strickland is currently Team Leader of the Experimental Immunology Research Group, Head of the Early Environment Research Focus Area, and Head SAGE Athena Swan Initiative at the Telethon Kids Institute, Perth Western Australia. Her research interests include maternal/neonatal health, immune development and homeostatic mechanisms, the inception and progression of allergic asthma, and the impact of inflammation during early life on risk for disease. The long-term strategic goal is to address fundamentally important knowledge gaps that underpin the Developmental Origins of Health and Disease which will be central to guide the identification, development and testing of preventative treatments to protect the developing immune system from perturbations leading to increased disease risk and improve short and long term health outcomes. She has strong commitments to inspire necessary changes to support the future development of women in science, and equity for all.

12:00pm till 1:00pm
followed by a light lunch
