

BD Horizon™ Multicolour Workshop

Multicolour flow cytometry is a powerful tool for the simultaneous analysis of multiple cellular markers. This workshop will enable you to design and run robust multicolour experiments on your digital flow cytometer.

Theory Sessions

Session 1: Telethon Kids Institute

Date: Monday 12th February

Time: 10:00am – 2:30pm

(Lunch will be provided)

call: 0409 048 633

**To be considered for a space in a Practical Workshop, attendance at one of the Theory Sessions is required. This does not guarantee a space in a Practical Workshop. Numbers are limited and spaces will be prioritised for users already running mid to high end panels.*
