

If you can only attend one medical research conference,
make sure it's

SCIENCE ON THE SWAN 2018

Showcasing Western Australia's leading health research and researchers, the translation of research into health care improvements, and the extensive cross-sector collaboration that positions the State as a cohesive and globally competitive health care and research destination.

**Excellent local, national and international
speakers across three major themes -**

- Aboriginal Health and wellbeing
- The life course of chronic disease
- Brain development and mental health

Who should attend?

- Researchers, particularly early to mid-careers
- Health professionals
- Students
- Research management and support staff

1-3 MAY, 2018

Esplanade Hotel Fremantle
