

HARRY PERKINS INSTITUTE
OF MEDICAL RESEARCH

PERKINS Seminar Series

www.perkins.org.au

THURSDAY 10 MAY

A/Professor Kevin Pflieger

Head of Molecular Endocrinology and Pharmacology Laboratory
Harry Perkins Institute of Medical Research

"Molecular Pharmacology to Research Translation"

Associate Professor Kevin Pflieger is Head of Molecular Endocrinology and Pharmacology at the Perkins and UWA Centre for Medical Research. His laboratory studies the molecular pharmacology of receptors, particularly those important in kidney disorders, cardiovascular disease, diabetes complications and cancer. He is a NHMRC RD Wright Biomedical Research Fellow (Level 2), as well as being Chief Scientific Advisor of ASX-listed Dimerix Limited, a spin-out company from the Perkins and UWA that has announced successful Phase 2a clinical trial results for treating chronic kidney disease, particularly associated with diabetes. He was Chief Scientific Officer of Dimerix Bioscience Pty Ltd from 2008-2014. A/Prof Pflieger is Chair of the Executive Committee of Accelerating Australia, a life sciences consortium working to advance the biomedical innovation ecosystem across Australia, supported by the MedTech and Pharma Growth Centre (MTPConnect). He is also Chair of the Australasian Society of Clinical and Experimental Pharmacologists and Toxicologists Scientific Advisory Committee, member of the International Advisory Group of the British Pharmacological Society, member of the WA State Committee of AusBiotech, and serves as the Commercialisation Representative on the WAHTN Management Committee.

12:00noon till 1:00pm

Followed by a light lunch
