

Ethics Processes within Research

Principles and Processes for Health Research in WA

Friday, 3 August 12:30 – 1:30PM

Are you planning an ethics application for a research project? This seminar will provide an update on ethics processes in WA Health and assist with an efficient and successful application.

It will briefly review principles of ethics in clinical research, and provide practical guidance for completing quality applications in WA. This seminar will also cover when to submit alternative approval routes for quality improvements, and low and negligible risk projects.

Associate Professor Sue Skull

A/Prof Sue Skull is based at Perth Children's Hospital, where she is Deputy Director of the Department of Child Health Research and Head of the Research Education Program. She holds positions as a Consultant Paediatrician and Associate Professor, UWA Division of Paediatrics and Child Health.

She remains actively involved in teaching research methods and enjoys helping others improve and enjoy their research experience.
