

HARRY PERKINS INSTITUTE
OF MEDICAL RESEARCH

PERKINS Seminar Series

www.perkins.org.au

THURSDAY 18 OCTOBER

Professor Jacques Miller

Emeritus Professor
Walter and Eliza Hall Institute of Medical Research

"How the thymus has shaped Immunology and beyond"

Jacques Miller, AC, FRS is an Emeritus Professor at the Walter and Eliza Hall Institute of Medical Research in Melbourne. His long-spanning and highly acclaimed career in immunology has been focused primarily on the thymus. He discovered its function as the source of cellular immunity and also is credited with discovery of the dual nature of adaptive immunity (i.e. T and B lymphocytes), which identified the cellular building blocks of the immune system as we understand it today. He has won many awards including the Copley Medal of the Royal Society in London and most recently the 2018 Japan Prize for Medicine.

12:00noon till 1:00pm

Followed by a light lunch
